The three network of branches of the vine convey the sprouts of Wisdom, Understanding and Knowledge that are growing within the Name of the butler. What is growing in our branches becomes evident in the hand—in the deeds of the butler via which the Mind of Consequence/Phargöh is served.

The Basket of HhaOLiyun conveys the upper altar of incense upon which the spices, the strands of fruit and the whitening of the seeds for the Bread are laid. The thoughts that we assemble in our mind determine the consequence of our house. The bread that has been baked indicates that the thoughts have become characterized by the expressions/faces of the baker. The baking process shows that the thoughts have taken form.

The baker's mind, depicted as a basket, is left open to the birds of prey. What has been assembled in the mind is what the birds of prey would feed upon. The position that one has to serve others is not fulfilled, and hence the Mind of Consequence determines the outcome of the thoughts. As with the wine server above, there is noted that within the Mind is Phargöh—the consequence of our thoughts and deeds are within the mind whereby the states of our houses are fairly determined without bias opin-

ions or judgement from others. According to our deeds and thoughts we determine our place in the Collective of Names whereby there is no disputes with another.
